

2010 NCK Mentor Program

NCK has created a new mentor program for the 2010 racing season. The program is designed to reward current members for bringing in new racers. Any member who brings in a new racer that completes the 3-race novice requirement will receive a **free** "All you can race" entry for both themselves **and** the new racer. The new racer is required to complete 3 races before the free entries will be rewarded.

Here is an overview of the program:

- The sponsoring member must be a current NCK member with a qualified IKF (red) license.
- The new member has never been an NCK or IKF member.
- The sponsoring member will become the mentor for the 3 race period.
- The mentor will keep a log sheet (supplied by NCK) of the new driver.

Upon completion of the third race the new racer's yellow novice IKF license will be signed off by a race official. You will then both receive a certificate redeemable for a free entry.

The free entry can be used at any NCK regular points race. It can not be used for the Thanksgiving Infineon event or any other special events.
